Planning permission had been refused previously on a site we were looking at and I was recommended to speak with Steve at AMS Planning.

I was immediately impressed by his positive attitude and grasp of the planning issues. Over the course of the next few months AMS Planning guided the planning application for five large houses through the planning system.

Ultimately, we received planning permission where others had failed. I cannot recommend AMS Planning highly enough.

We now use the team at AMS for a range of other work including GIS which is a new area for us. That will generate new development projects and we will continue to use both the planning and architectural side of the practice.
