Development, Regeneration, Investment & Management

As one of the larger property companies in the northern region we choose the companies we work with carefully.

The team at AMS Planning have been one of those companies for a few years now and I have always been impressed with their expertise and commercial understanding of the planning system.

We used the team at AMS Planning on a project south of Yarm in the Tees Valley for 145 homes. A combination of local knowledge and planning expertise from Steve and his Associate Ross led us to a successful outcome in the face of quite significant opposition.
